THE SYSTEM The unique modular construction offers parents unparalleled flexibility for baby transport and care. The basis of the Mutsy range is three frames, with features including single-hand adjustable handle, quick release wheels and an easy to engage folding mechanism. Your Mutsy comes with a fully-adjustable seat and hood. A bassinet, car seat adaptor, dinnertray, babysitter, extra shopping basket, nursery bag and funseat

are available separately. An intelligent click mechanism enables you to transform the buggy into a pram or to fit a car seat with a single movement. This flexible system allows you and your child to enjoy and grow with this buggy for many years.

SAFETY AND ERGONOMICS The development of each Mutsy product involves devoting a great deal of attention to ergonomics and the safety of the child. The comfortable full-sized

bassinet is recommended for babies up to 6 months, to keep them in the preferred lie-flat position. The buggy seat reclines fully and has an adjustable leg rest and head enclosure to provide maximum comfort for baby or child to sleep. The bassinet is designed to always face mum, while the seat can be mounted either facing mum or outward, so baby can see the world.

4RIDER LIGHT

4RIDER LIGHT Fashion and function are provided with Mutsy's 4Rider light, the superior baby transport choice for busy parents on the go. This lightweight version of the 4Rider has durable rubber tyres on jaunty spoked wheels for even more maneuverability and versatility. With its' quick and easy fold, single-hand height adjustable handle and large, accessible basket the light is ideal for both outdoor and urban use. As with every Mutsy frame, the quick-release wheels are extremely easy to remove, the front wheels can be locked simply with a single action, and the buggy stands on its own when folded.

4RIDER The 4Rider features Mutsy's signature profile with a contemporary minimalist look. The modern single spoke wheels have pneumatic tyres for an edgy look that is also maximally comfortable for baby. Every 4Rider comes complete with a fully-reclining seat with head enclosure, leg support and its' own full-sized hood - even the depth of the seat is adjustable to accommodate smaller babies up to larger toddlers. A full-sized, cosseting bassinet that includes a protective apron with extra storage and hood is a wonderful option for newborns. The car seat adaptor, dinnertray, babysitter, extra shopping basket, matching nursery bag and funseat are also available separately.

TRANSPORTER This light combi-stroller can be used in combination with a bassinet, a seat cover, a Graco, a Maxi-Cosi and a Peg-Pérego car seat. This sporty 4 wheeler is characterised by its ease of operation, a back support adjustment, a height adjustable push bar and its extremely compact volume when folded. This stroller is also extremely flexible and manoeuvrable on account of 2 front swivel wheels. As in the previous Mutsy stroller, the 4 wheels are removable, allowing even greater compact volume when the stroller is folded. Matching accessories are available separately.

- Grow-up! raspberry 07

08 GROW-UP!

EASYGROW This pioneering new highchair brings your interior alive and offers your child a safe and comfortable place at the table. The height of the seat and foot support can easily be adjusted without additional tools being required for this. This enables you to easily and quickly adjust the highchair to the needs of your child. The bumper bar and dinner tray can be tilted forwards, enabling it to be opened, which allows you to easily place your child in the highchair. The Easygrow is suitable for children from 6 months upto 12 years. The Easygrow chair includes foot rest, dinner tray and bumper bar and is available in 4 colours (next brown, next navy, dark grey and white). The flexible seat reducer is available by separate order.
